H6 Series 4K ULTRA HD SMART TV

Model # 65H6D

I'm a big deal

Have you ever seen a 4K UHD TV like this? We're guessing that if you did, it was not this affordable. It has four times more pixels (8.3 million) than standard high-definition TV, so the H6 Series 4K UHD TV has really bright colors, clean lines, and rich contrast. The standard HDR-compatible technology maximizes brightness while the built-in UHD Upscaler converts lower resolution content as close to 4K as possible. This series also features award-winning sound integrated from dbx-tv® and comes with tons of built-in apps to personalize your entertainment.

HDR-Compatible

Lose yourself in scenes that have an elevated brightness and range of colors thanks to HDR-compatible standard.

UHD Upscaler

Give that 1080p movie from your collection a boost by viewing it in or near 4K.

Popular, built-in apps

We've pre-installed all your favorite apps for you, and there are eight ports to help you connect to external devices.

Award-winning audio technology

Let the rich sound integrated by dbx-tv® Award-Winning Audio Technology, carry you away. You'll hear every detail in the background of your favorite movie and experience it differently.

Numerous inputs

We made it easy to connect external devices with seven (7) convenient ports including HDMI, USB and many more.
