Specifications

Designed Specifically for the Healthcare Industry

UL Hospital Grade Listed

Improved Dynamic Contrast Ratio (1,000,000:1)

Energy Star® 7.0 Qualified

RoHS Compliant

California Energy Commission (CEC) Compliant

Multi IR Code Support

Built-in MPI Port

TV Speaker Disable

Built-In Pillow Speaker Compatibility

Supports multiple codes (Zenith, Philips, RCA)

Express Script or EZ-Manager Setup

LG's Exclusive Pro:Centric Application Platform

Supports Java™ and Adobe® Flash® Application
(Pro:Centric Single Tuner)

Remote Management of Television

Using Pro:Centric server (PCS200S)

Dynamic/Static Power Savings

Restriction of Hazardous Substances

Integrated Pro:Idiom® Digital Rights Management Technology

MPEG-2 / MPEG-4 H.264 Decoding

Splash Screen Image/Logo (On Startup)

Customized Welcome Screen
(Pro:Centric application feature)

USB Cloning

On-site 2 Year Limited Warranty (parts and labor)

OPTIMIZED FOR HOSPITAL ENVIRONMENT

Pillow Speaker Ready

Audio and video are controlled directly by a pillow speaker for patient convenience.

Nurse Call System

Hospital staff can be called in emergency situations.

UL Listed Mark

The LX570M series is UL certified healthcare grade.

EASY CONTENT CREATION & MANAGEMENT

Pro:Idiom®

Global Leading Digital Rights Management System

The most widely used DRM system prevents the illegal copying of content.

Pro:Idiom unlocks access to premium content to help assure rapid and broad deployment of HDTV and other high value digital content.

Pro:Idiom has been designed specifically for users of premium HDTV content from cable, satellite, or video on demand (VOD) services, and is thus designed to lower costs and reduce maintenance needs. This leading DRM system is embraced for its security solution, which prevents illegal copying of copyrighted content.

Reduced Total Cost of Ownership

The EZ-Manager's auto configuration function makes installation quick and easy. The EZ-Manager guides the installer to set up the TV with simple steps, saving time and cost.

Using LG's optional Pro:Centric server, you can remotely manage configuration and channel mapping for TVs in patient rooms without having to visit each room.

Effectively Manage Patient Room TVs

The USB Cloning feature allows you to simply copy settings from a designated Master TV using a USB memory device, a process that is fully automated to save time.

Pro:Centric®

Pro:Centric Application Platform

Interactive Patient Room Experience

An industry leading television that supports the Pro:Centric platform, LG's new LX570M allows healthcare facilities to customize the patient room experience. The Pro:Centric application allows you to create your own content and manage multiple channels, which can be specialized for your hospital. Pro:Centric also provides an easy way for the LX570M to interface with interactive program guides, games and internet data feeds, as well as applications designed to connect patients to services, such as dietary menus and patient room information.*

* May require additional software and hardware to support third-party partner interactive systems or LG's Free-To-Guest Mode/Pro:Centric application.

Customizable Pages

Up to 40 customizable billboard and/or map pages.

Multi Channel Spooling

Operation of up to eight customizable video channels.

OPTIONAL ACCESSORY REMOTES

INSTALLER REMOTE

PATIENT MULTI-BED REMOTE
