Highlights

4K Ultra HD

Ultra HD TV has four times the resolution of a conventional Full HD TV. With over 8 million pixels and our unique Ultra Resolution Upscaling technology, you'll experience improved images regardless of the original content. Enjoy improved sharpness, increased depth perception, superior contrast, smooth natural motion, and flawless details.

Pixel Plus Ultra HD

Experience 4K Ultra HD sharpness with the Philips Pixel Plus Ultra HD engine. It optimizes picture quality to deliver smooth, fluid images with incredible detail and depth – Enjoy

sharper 4K images with brighter whites and blacker blacks every time.

2.1 sound system

This 2.1 sound system with accompanying speaker is a complete sound system that utilises Philips sound processing technology. It amplifies the bass frequencies from the speaker and at the same time optimizing mid and low frequencies. The result is a system that powerfully reproduces the full range of audio frequencies from the deepest bass to crystal clear high notes.

Dolby Digital Plus technology

Dolby Digital Plus, the world's leading digital multi-channel audio standards, make use of the way the human ear naturally processes sound, you experience superb quality audio sound with realistic spatial effects.

Seamless connection via NFC

Near field communication, abbreviated NFC, is a form of contactless communication between devices like smartphones or tablets.

Contactless communication allows a user to wave the smartphone over a NFC compatible device to send information without needing to touch the devices together or go through multiple steps setting up a connection.
