Smart 4K UltraHDTV

Your favorite online content in UltraHD

Dolby Vision™ transforms your TV experience with dramatic imaging - incredible brightness, contrast, and color that bring entertainment to life before your eyes.

Benefits

Enjoy the beauty of 4K Ultra HD

- Dolby Vision for Dramatic Imaging at Home
- Pixel Precise UltraHD for vivid, natural, and real images
- The beauty of 4K UltraHD TV is in savoring every detail
- 120 Perfect Motion Rate for increased pixel response times
- An intelligent dimming backlight for dynamic contrast
- Enjoy HD content in 4K UHD with a 4K upscaling engine

Authentic and clear sound experience.

- 20 Watts RMS of rich surround sound to complement 4K images

- Immersive sound with clear voice designed by sonic emotion
- Dolby Audio for the ultimate movie experience

Complete digital TV connectivity made simple.

- Wireless LAN 802.11ac with MIMO for seamless streaming of 4K
- NetTV with Wireless access to online services on your TV
- Play HEVC, H.264, AAC, MP3, JPEG and more formats on USB
- HDMI 2.0 with HDCP 2.2 for 4K on all HDMI ports

PHILIPS

Features

Dolby Vision

Dolby Vision is a powerful cinema technology that now transforms your TV experience. It brings entertainment to life with dramatic imaging - incredible brightness, color, contrast, detail and dimensionality. And with the advanced capabilities in Dolby Vision, you'll see there's more to the story than generic HDR can reveal.

Pixel Precise UltraHD

The beauty of 4K Ultra HD TV is in savoring every detail. The picture-processing algorithms of our Pixel Precise Ultra HD engine convert any input picture into UHD resolution on your screen. The result? Whether you watch a video online or native 4K Ultra-HD content, you'll experience exceptional sharpness, motion, clarity, color and contrast from Philips.

4K UltraHD

4 times the resolution of Full HD brings your viewing experience to the whole new level. Enjoy every detail and the breathtaking beauty of the pictures.

120 Perfect Motion Rate

120 Perfect Motion Rate (PMR) creates extreme motion sharpness for clear and vibrant images in fast action movies. The new Philips PMR standard reduces response time of the HDTV to produce faster picture transitions and reduces motion artifacts.

Macro dimming

Using a proprietary video processing algorithm which measures average luminance level of each video frame, Philips' Macro Dimming intelligent backlight dims the backlight to match every video frame to ensure you have a strain-free life-like viewing experience with bright whites, vivid colors and dark blacks.

4K Upscaling

Your Standard Definition and High Definition videos have never looked better. 4K upscaling processor delivers images that are crystal clear. Movies in standard definition and high definition can now be enjoyed in 4K Ultra HD, ensuring more details and more true-to-life pictures.

Sonic Emotion Premium

Immersive sound with clear voice designed by sonic emotion. Absolute3D sound fills your surroundings with the right ambience, clarifies voice, and details the sound stage, making your experience more immersive and enjoyable.

Wireless LAN 802.11ac w/ MIMO

Wireless LAN 802.11ac with MIMO antennas for seamless streaming of online 4K content.

NetTV

Experience a rich selection of online services with Net TV wirelessly. Enjoy movies, pictures, infotainment and other online content directly on your TV whenever you like. Wirelessly navigate and select what you want to watch with the TV remote control. The Philips menu gives you access to popular Net TV services fitted for your TV screen.

USB multimedia playback

The USB connector allows access to HEVC, H.264, AAC, MP3, JPEG and more formats files of most USB-sticks (USB memory-class device). Plug the

USB into the slot at the side of the TV and access the multimedia content using the easy on screen content browser. You can now view and share your videos, photos and music.
